TRAINING PARTNER

Project on Electronics

Common Features

1. Identification of Electronics Components.
2. Testing of Components.
3. Soldering & desoldering techniques.
4. Usage practice of Measuring instruments.
5. Unknown ckt. tracing.
6. Designing & manufacturing of different volt output eliminator.
7. Manufacturing of astable ckt & 555 usage.

Projects

- | | |
|---|-----------------|
| 1. Remote GSM Switching using DTMF. | 6000+Tax |
| 2. PIR Sensor based Motion Detector. | 6000+Tax |
| 3. RF Transmitter & Receiver. | 6000+Tax |
| 4. Automatic Traffic Signalling System. | 4000+Tax |
| 5. RJ 45 Patch Cord Tester. | 4000+Tax |
| 6. Solar Technology based Different Projects. | 4000 - 6000+Tax |
| 7. ATMEL Micro Controller based Different Projects. | 6000+Tax |
